

Documentation installation et mise en place Proxmox Backup Server

Pré-requis :

- ISO Proxmox Backup Server
- Une machine capable d'héberger PBS (256Go de stockage minimum requis)
- Une clé USB bootable

Branchez votre clé USB et démarrez la machine, dans notre cas nous optons pour une installation avec interface graphique pour le confort.

Welcome to Proxmox Backup Server

Install Proxmox Backup Server (Graphical)
Install Proxmox Backup Server (Terminal UI)
Advanced Options

enter: select, arrow keys: navigate, e: edit entry, esc: back

Prenez connaissances des **EULA** puis acceptez les.

Proxmox Backup Server

END USER LICENSE AGREEMENT (EULA)

4. Intellectual Property Rights. The Programs and each components are owned by Proxmox and other licensors and are protected under copyright law and under other laws as applicable. The "Proxmox" trademark and the Proxmox company logo are registered trademarks of Proxmox in Austria and other countries. This EULA does not permit you to distribute the Programs or their components using Proxmox's trademarks, regardless of whether the copy has been modified. Title to the Programs and any component, or to any copy, modification, or merged portion shall remain with Proxmox and other licensors, subject to the applicable license.

5. Third Party Software. Proxmox may distribute third party software with the Programs. These third party programs are provided as a convenience to you, and are subject to their own license terms. If you do not agree to the applicable license terms for the third party software programs, then you may not install them.

6. Export Regulation. You warrant that you understand that the Programs and their components may be subject to export controls under the Austrian Export Administration Regulations.

7. Other terms. If any provision of this EULA is held to be unenforceable, the enforceability of the remaining provisions shall not be affected. Any claim, controversy or dispute arising under or relating to this EULA shall be governed by the laws of Austria (Europe), without regard to any conflict of laws provisions.

Veillez ensuite à bien sélectionner le **disque** sur lequel vous souhaitez installation PBS puis cliquez sur **"Next"**

PROXMOX Proxmox Backup Server

Location and Time Zone selection

The Proxmox Installer will set up your time zone and keyboard layout. Ensuring that your system behaves as intended once it is up and running.

Press the Next button to continue the installation.

- **Country:** Narrows down the available time zones to make selection easier.
- **Time Zone:** Automatically adjust daylight saving time.
- **Keyboard Layout:** Choose your keyboard layout.

Country:

Time zone:

Keyboard Layout:

Sélectionnez ensuite votre **pays** et votre **timezone**.

Administration Password and Email Address

Proxmox Backup Server is a full-featured, highly secure system, based on Debian GNU/Linux.

In this step, please provide the *root* password.

- **Password:** Please use a strong password. It must be at least 8 characters long, and contain a combination of letters, numbers, and symbols.
- **Email:** Enter a valid email address. Your Proxmox Backup Server will send important alert notifications to this email account (all emails for 'root').

To continue the installation, press the Next button.

Form for Administration Password and Email Address. It includes input fields for Password, Confirm, and Email. The Email field contains the text 'mail@example.invalid'. At the bottom, there are buttons for 'Abort', 'Previous', and 'Next'.

Maintenant, choisissez un mot de passe pour le compte **root**, renseignez également votre adresse e-mail, cela permet de recevoir des notifications importantes à propos de votre PBS.

Management Network Configuration

Please verify the displayed network configuration. You will need a valid network configuration to access the management interface after installing.

After you have finished, press the Next button. You will be shown a list of the options that you chose during the previous steps.

- **IP address (CIDR):** Set the main IP address and netmask for your server in CIDR notation.
- **Gateway:** IP address of your gateway or firewall.
- **DNS Server:** IP address of your DNS server.

Form for Management Network Configuration. It includes a dropdown for Management Interface (selected: nic0 - bc:24:11:8c:55:97 (virtio_net)), input fields for Hostname (FQDN) (pbs.M2L.local), IP Address (CIDR) (192.168.10.114 / 24), Gateway (192.168.10.1), and DNS Server (192.168.10.2). There is a checkbox for 'Pin network interface names' and an 'Options' button. At the bottom, there are buttons for 'Abort', 'Previous', and 'Next'.

Pour cette partie, entrez votre **hostname**, votre **adresse IP**, votre **gateway** ainsi que votre **adresse DNS**.

Summary

Please confirm the displayed information. Once you press the **Install** button, the installer will begin to partition your drive(s) and extract the required files.

Option	Value
Filesystem:	ext4
Disk(s):	/dev/sda
Country:	France
Timezone:	Europe/Paris
Keymap:	fr
Email:	t.bret@ecole-ipssi.net
Management Interface:	nic0
Hostname:	pbs
IP CIDR:	192.168.10.114/24
Gateway:	192.168.10.1
DNS:	192.168.10.2

☒ Automatically reboot after successful installation

Install

Vérifiez que vous avez bien renseigné les bonnes informations puis cliquez sur **"Install"**

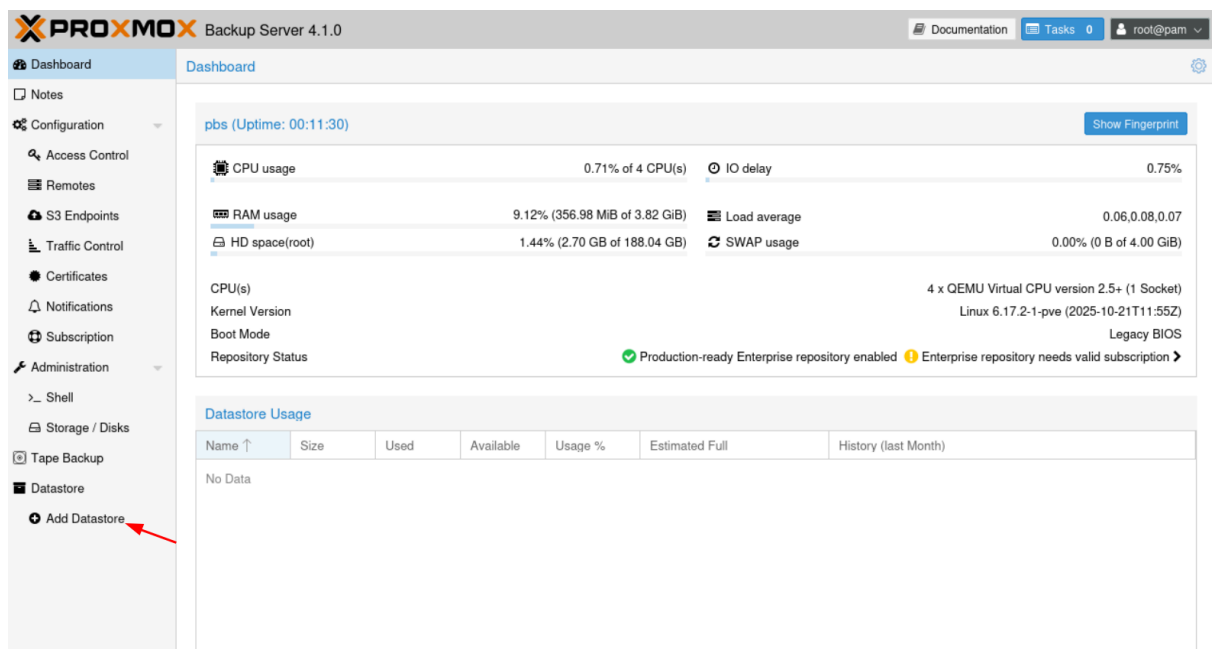

```
-----  
Welcome to the Proxmox Backup Server. Please use your web browser to  
configure this server - connect to:  
https://192.168.10.114:8007/  
-----
```

```
pbs login:
```

A la fin de l'installation, la machine va redémarrée, vous pouvez dès à présent voir depuis quel lien est accessible l'interface PBS

Connectez vous dès à présent avec l'utilisateur **root** et le mot de passe que vous avez entré précédemment

Nous allons maintenant créer un Datastore, c'est l'endroit où sera stocké vos backups. Pour ce faire, cliquez sur "Add Datastore" dans le menu latéral gauche.

The screenshot shows the 'Add: Datastore' form in Proxmox Backup Server. The form has two tabs: 'General' and 'Prune Options'. The 'General' tab is active, showing fields for Name, Datastore Type, Backing Path, S3 Endpoint ID, Comment, GC Schedule, Prune Schedule, Device, and Bucket. The 'Add' button is at the bottom right.

Name	Size	Used	Available	Usage %	Estimated Full	History (last Month)
No Data						

Add: Datastore

General **Prune Options**

Name: GC Schedule:

Datastore Type: Prune Schedule:

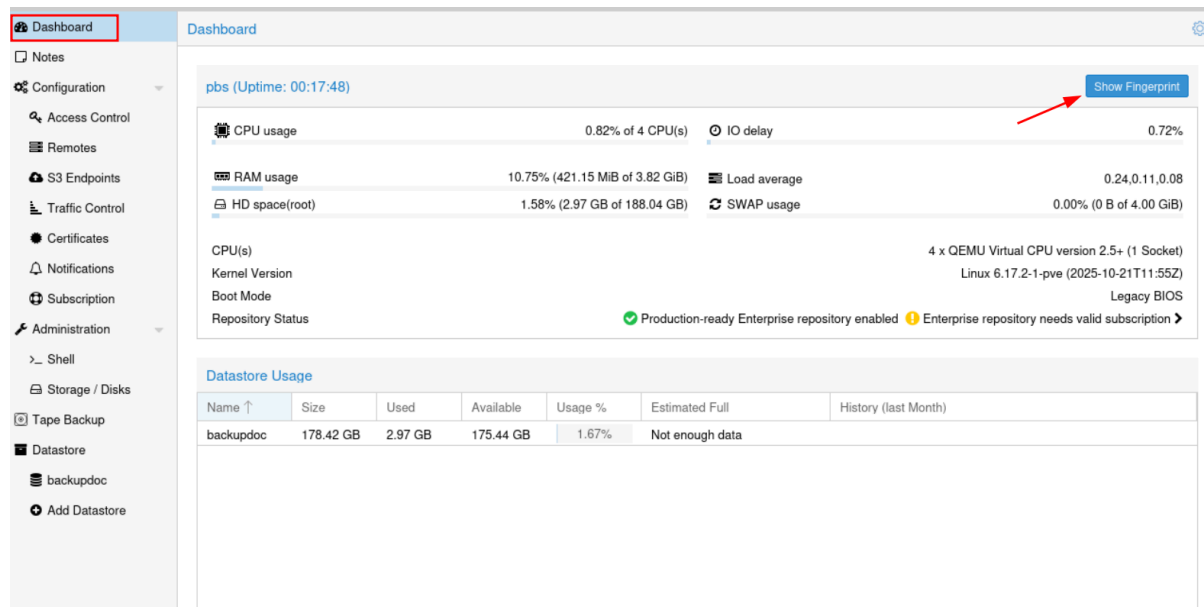

Backing Path: Device:

S3 Endpoint ID: Bucket:

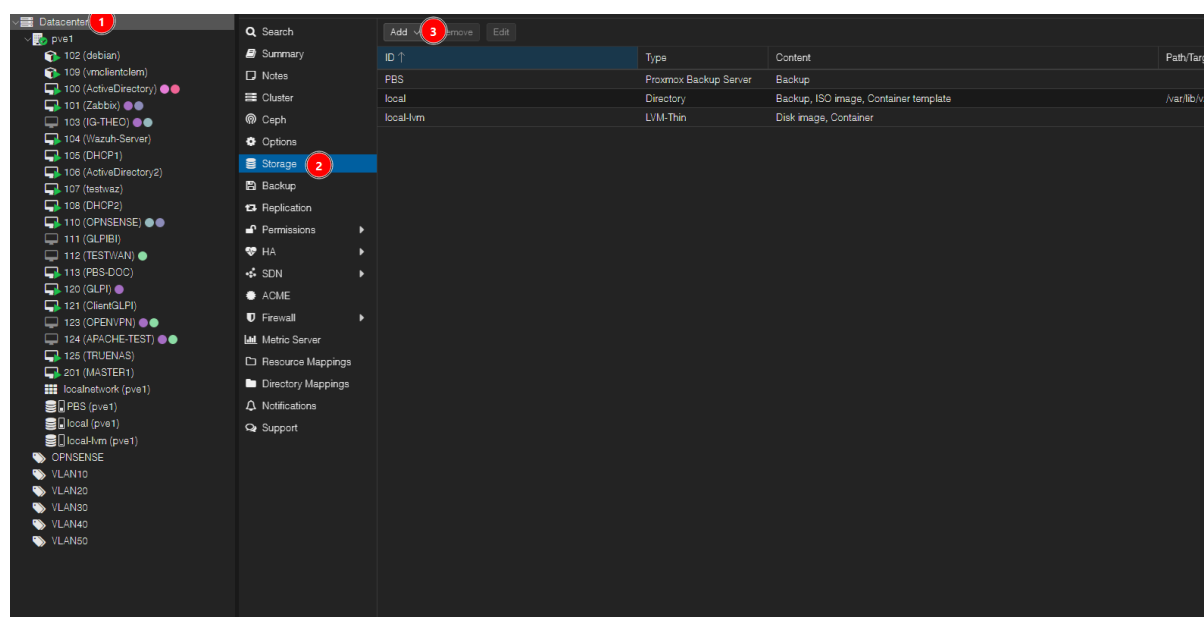

Comment:

☐ Advanced

Donnez un nom à votre Datastore ainsi que l'emplacement où seront enregistrées vos sauvegardes. Cliquez ensuite sur "Add"

Une fois votre Datastore créé, rendez vous dans l'onglet **"Dashboard"** puis récupérer le Fingerprint en cliquant sur **"Show Fingerprint"**, vous en aurez besoin afin de lier votre PBS à votre Proxmox.

Retournez maintenant sur votre interface **Proxmox VE** puis rendez vous dans **Datacenter > Storage**, cliquez ensuite sur **Add** et **Proxmox Backup Server**

Add: Proxmox Backup Server

General Backup Retention Encryption

ID: PBS-DOC Nodes: All (No restrictions) ▾
